

MD. AHSAN HABIB

FULL STACK DEVELOPER

Kurigram, Bangladesh | +8801303619873 | sowmik.sec@gmail.com

[GitHub](#) | [LinkedIn](#) | [Pixoree](#) | [Children of the Ummah](#)

Professional Summary

Full Stack Developer experienced in building interactive web tools, multi-tenant platform modules, and production applications with Next.js, React, TypeScript, Go, and MongoDB. Delivered a live, production Canva-style design tool (**Pixoree**) and a full-stack charity donation platform that has processed over **£44,500+** (~7.3 Million BDT) in Stripe donations. B.Sc. in Computer Science & Engineering (CGPA 3.47/4.00, 2022).

Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, Go (Golang), HTML5, CSS3
- **Frontend:** React, Next.js, Fabric.js, TanStack Start, Tailwind CSS, Redux / State Management
- **Backend & Database:** Next.js (API Routes / Server Actions), Node.js, Go, MongoDB, RESTful APIs, Stripe API
- **Tools:** Git, GitHub, Docker, Postman, Vercel
- **AI-Assisted Development:** Claude Code, OpenCode, Antigravity

Work Experience

Full Stack Developer (Remote) — Deadlock Soft

July 2025 – Present

- Develop and maintain full-stack web applications using Next.js, TypeScript, Go, Tailwind CSS, and MongoDB.
- Key deliverables in this role:

Pixoree — Interactive Web Design Tool

[pixoree.app](#)

- Built a Canva-style design platform enabling users to create certificates, resumes, social media posts, presentations, and marketing materials from templates or a blank canvas.
- Engineered the core canvas engine with Next.js, TypeScript, and Fabric.js: drag-and-drop positioning, multi-layer ordering, rotation, scaling, text/image manipulation, undo/redo history, and export.
- Designed modular, responsive canvas toolbars with Tailwind CSS for a smooth editing experience across screen sizes.

Skillbento — LMS & Community Platform

In Development

- Building core platform features across Course Management, Community Forums, Event Management, Appointment Scheduling, and Payment Processing modules.
- Integrating frontend applications with a high-performance Go (Golang) backend and MongoDB database services.

Key Projects

Children of the Ummah — International Charity Platform

2025

Tech: Next.js (Full Stack), React, Tailwind CSS, Stripe API | [Live Site](#) | [Repo](#)

- Built a production-grade, full-stack donation web application for a UK-based charity using Next.js.
- Integrated Stripe API for multi-currency payments (GBP, USD, EUR, etc.), processing over **£44,500+** (~7.3 Million BDT) in total donations to date.
- Created dynamic donation forms supporting custom amounts, currency switching, and recurring payment options.

Education

B.Sc. in Engineering, Computer Science & Engineering (CSE)

Graduated 2022

Sylhet Engineering College | CGPA: 3.47 / 4.00
